

QUOTE WITH SPEED AND PRECISION

Information comes in many different forms, from spreadsheets to specifications to emails to CAD models and drawings. All of these documents contribute to the quoting and costing activity. It is not only important to capture and track the information, but to actually be able to view, markup and collaborate with your vendors and suppliers.

QLM View offers a cost-effective alternative to purchasing multiple CAD licenses by giving users the power to open a drawing, review it, rotate it and add notes as necessary.

QLM View can import CAD drawings into Microsoft Office applications, like Word or Excel. With this versatility, you can increase the effectiveness of supporting quote documents and clarify the quotation process.

FEATURES:

- View CAD drawings without licenses for expensive CAD software
- Import drawings into MS Word or MS Excel
- View, Rotate, Add Notes, Zoom and more!

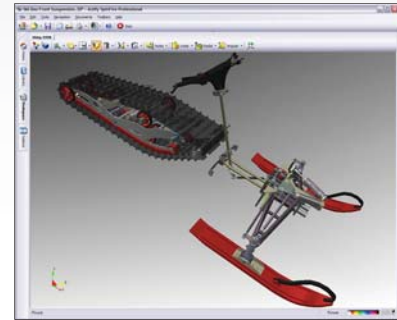

QUOTE WITH SPEED AND PRECISION

Integrating QLM View into the quotation process is one of the easiest ways to save time and improve the accuracy of your responses. Now anyone involved in the quotation process can view designs, schematics, and add notes to truly understand the context of the quotes being developed.

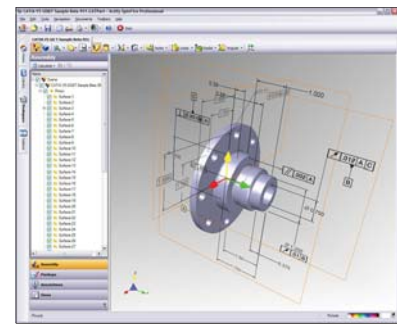

Capture all of the information together in a single common area to efficiently enable distribution. Imagine having everything at your fingertips; your customers and and/or suppliers will be on the same page.

View and query any document to ensure accuracy. In this fast paced world of manufacturing, change is the only constant. Managing that change, and the impacts to costing and quoting, is critical. With the right information, you can be sure of better informed decisions.

Collaborate by sharing your ideas with customers and suppliers. Streamlining communications provides added value to your customers.

QLM View will open any of the popular CAD documents.

Share the documents in an Internet ready format for fast communication.
